Alectra Energy Solutions introduces optional electrical plans from HomeServe

Ontario, Canada – Alectra Energy Solutions is pleased to introduce optional exterior and interior electrical plans from HomeServe to help protect customers against electrical system repairs.

Unexpected home repairs can cause disruption to daily routines and create financial hardship for homeowners. Alectra Energy Solutions is working with HomeServe, a leading provider of home service solutions, to offer optional protection to help with the costs of normal wear and tear repairs to covered household electrical systems that are not typically covered by basic homeowners' insurance, up to the annual benefit amount. The program is designed to help homeowners save money and reduce the inconvenience of urgent electrical system repairs.

"In recent years, many homeowners unfortunately discovered the importance of preparing for a home repair emergency. We're pleased to be working with HomeServe on this optional service program that will provide valuable protection plans for homeowners," said John Matovich, EVP, Energy Solutions & Growth at Alectra.

The service plans currently offered by HomeServe include coverage for Exterior Electrical, Interior Electrical and Interior Electrical with Electric Vehicle Charger plans.

Monthly pricing and annual benefit amounts will vary based on the plan(s) selected, but all plans include:

- Multiple service calls up to the comprehensive yearly benefit amount
- Access to a 24/7 emergency repair hotline
- Repairs will be performed by local, licensed and insured technicians
- One-year guarantee offered by HomeServe on all covered repairs

Eligible homeowners can choose any of the available service plans; participation is entirely voluntary. An awareness campaign including digital media and direct mail will be sponsored by both Alectra Energy Solutions and HomeServe.

For more information on all the available plans in this program, please go to PlansAlectraSolutions.ca or call HomeServe toll-free at 1-866-637-7045.
